

ZERO KNOWS TRANSITAINERS™

THE ZERO MANUFACTURING, INC. TRANSITAINEER™ line represents the ultimate in total packaging capability at a very affordable price. Transitainers™ provide a highly reliable, cost effective alternative to other types of shipping/storage and transit cases. These cases are also available through our Quick-Ship Program.

Details available at www.zerocases.com/quickship

The Transitainer incorporates the total package at an affordable price and has outstanding durability and performance. With easy storage and transit with trouble free stacking, the Transitainer is perfect for shipment and storage of such items as:

- Field portable, sensitive electronic instruments
- Military applications, monitoring equipment
- Seismic, pollution control instrumentation
- Airport, flight guidance systems
- Telecommunications equipment
- Field communications systems
- Field computer systems
- Test equipment

FEATURES

- Made from rotationally molded polyethylene plastic
- Uniform wall thickness
- Compounded color impregnated directly into durable polyethylene plastic shells
- Nearly stress-free shells
- Integrally molded tongue and groove closure for a watertight seal
- Extra rugged corner construction
- Gasketed construction with integral tongue and groove closure interlocks top and bottom for environmental protection
- Recessed hardware for added protection
- Meets ATA 300 Category 1, and applicable portions of MIL-T-28800, MIL-C-4150 and MIL-STD-108 specifications
- Wide range of colors available using FED-STD-595 guidelines
- Spring loaded, rattle proof handles with 90° stops
- Cam action, positive locking latches
- Interlocking ribs, top and bottom allow for stacking of containers
- Resists most chemicals and solvents
